

Industrial PC 3560G

GENERAL FEATURES

Fanless industrial computer, perfect to be used as a supervising computer for CNC machines that do not require a high computing power.

The computer comes with a metallic chassis that is also a heat sink; it is suitable to be mounted on DIN rails.

Its moderate size and high expandability make it an object suitable for several types of applications, even on smaller machines.

The PC is compatible with Windows 10, and it comes either without an operating system or with Windows 10 IoT LTSB OS.
